Foreword

To the Trade:

We take pleasure in presenting our **Spring, 1935**, combined **Plant** and **Seed** list.

An institution grows as it is capable of serving well its many customers. We have always held to the maxim "He profits most who serves best." During the years we have been in business we have been slowly building up the selection of plant material we offer, until now our list contains most of the popular items and many novelties in the line of Roses and Perennials and Rock Plants.

The **New Dawn** rose was our introduction, and we can safely say that it is one of the best and most satisfactory climbing roses ever introduced. We have been constantly on the lookout for worth-while introduction. Our list of Phlox covers the best varieties in commerce and our strains on many items are well above the average.

A new departure was the development of a seed department. We have been selling, in a small way, seeds of various specialties, demanded by our customers because of their quality. In this catalog we offer a comprehensive list of **seeds for the florist**, both for the greenhouse and outdoors. It is our aim to offer only the best strains and for that purpose we have contacted the world's best specialists in the various items. We shall appreciate your giving our seeds a trial and welcome your cooperation in maintaining a high standard.

A cordial invitation is extended to visit our nurseries and we hope we may continue to be favored with your valued patronage.

SOMERSET ROSE NURSERY, INC.,
New Brunswick, N. J.

We recommend planting dormant roses in the Fall and very early Spring. Experience has shown that results with dormant plants are very uncertain after April 1st, and for that reason we offer potted roses only in our Spring list. Prices on this type of material are naturally higher but results are so superior, there is no question of value because the element of loss and complaint is practically eliminated.

RECENT INTRODUCTIONS

(Please Note—The asexual reproduction of patented plants is reserved and strictly prohibited under the provisions of the Plant Patent Act.)

THE NEW DAWN—Plant Patent No. 1

The first truly hardy everblooming Climbing Rose and the first plant ever to be granted a patent. Blooms as freely as a Hybrid Tea and a well-cared-for bush will produce many hundreds of blooms during the Summer and Fall. The dark green glossy foliage is ornamental at all times, and practically immune to insects and disease. The large finely formed blush pink blooms are excellent as a cut flower because of their long stems and exquisite fragrance. The severe winter of 1934 proved it to be among the hardiest of all climbing roses.

FRENCH LILACS

French Lilac

Universal favorites which give best results if planted in Fall. The large individual flowers and immense trusses of the select varieties we offer will be a revelation to many of your customers. Excellent for the garden. They are readily forced in early Spring if allowed to freeze for a few weeks. (Varieties marked X are best for forcing.)

2-3 feet, \$3.50 per 10—\$30.00 per 100

3-4 feet, 5.00 per 10— 45.00 per 100

B. & B. \$0.20 per plant extra

- X Buffon. Single mauve pink, early and free flowering.
- X Charles X. Large single, flower reddish purple.
- Charles Joly. Double rich, dark purple.
- Claude Bernard. Semi-double, soft lilac.
- Hugo Koster. Rather dwarf in growth, single blue.
- Jan Van Tool. Very large, single white flowers.
- Jean Mace. Very double and free flowering pink.
- X Ludwig Spaeth. Long trusses of deep purplish red. A very popular variety.
- X Marie Le Graye. Single white, probably the easiest to force.
- Michael Buchner. An excellent variety with double light blue flowers.
- X Mme. Lemoine. Double white.
- Pres. Grevy. Rich blue double.
- Waldeck Rosseau. Outstanding because of the immense panicles of semi-double soft pink flowers.

Collection one each of 12 varieties \$3.50

FLOWERING CRABS

Are you looking for something different? Cut branches of the flowering crabs make unusual and distinctive cut flowers; especially in very early Spring. They force quickly and take little room. Of course they are also excellent for planting in the shrub border or as a small individual tree and after the flowers; many varieties bear ornamental and useful fruit. We offer vigorous blooming size trees. (Varieties marked X are most suitable for forcing.)

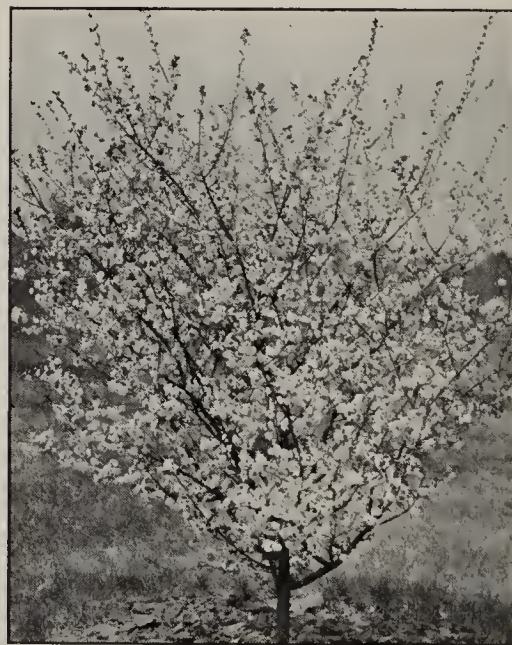

3-4 feet, \$4.50 per 10—\$40.00 per 100

4-5 feet, 6.00 per 10— 50.00 per 100

5-6 feet, 7.50 per 10— 60.00 per 100

- X Atrosanguinea. Single, red flowers, produced in great abundance.
- Baccata. Single, fragrant white flowers, followed by yellow or red fruit.
- Bechtels. Probably the most popular for outdoor planting. Blooms later than most varieties and bears quantities of large double pink rose-like blooms.
- X Eleyi. Red leaves, flowers, fruit and stems.
- X Floribunda. Pink buds opening into single fragrant white flowers followed by yellow fruit. Flowers produced in such masses that each branch is covered.
- X Spectabilis. Delicate double pink sweet-scented flowers.
- Scheideckeri. Double pink flowers in clusters.

Collection one each of the above 7 varieties \$2.50

Flowering Crab

We call your attention to the Flower Seeds offered on pages 17 to 26. The best strains only are offered and trial order would be appreciated.

Interest in hardy perennials is constantly increasing. Garden magazines and Garden Clubs are spreading the knowledge of the choicer items. The reasonable price at which most plants are sold is also a big factor in creating a demand that means profit to you.

Many items are valuable cut flowers and they usually bloom at a time when greenhouse material is scarce. A planting of cut flower items will repay many times its original cost, with the natural increase available for resale.

NASTURTIUM

THE NEW DOUBLE NASTURTIUM

The introduction of the Double Golden Gleam caused a sensation and increased interest has been shown in anticipation of new colors in the double sweet scented type of Nasturtium. The following introductions will be received with enthusiasm. All make excellent cut flowers.

DOUBLE SCARLET GLEAM

Even more intensely dazzling in color than the showy Golden Gleam. Flowers of immense size, of a fiery or orange scarlet and with a pronounced fragrance. Plants are semi-dwarf and the flowers are held well above the foliage on wiry stems.

Tr. Pkt. \$0.25—1/4 Oz. \$0.50—1 Oz. \$1.50

DOUBLE GLEAM HYBRIDS MIXED

Similar in habit to the Double Scarlet Gleam, these double hybrids are a collection of gorgeously colored, large, well-formed flowers in a range of colors never before found in Nasturtium. Salmon, cerise, cream yellow, gold flushed scarlet and many other colors make this an outstanding mixture.

Tr. Pkt. \$0.25—1/4 Oz. \$0.50—1 Oz. \$1.25

DOUBLE GOLDEN GLEAM

This double variety was one of the most important introductions in many years. The plants are of semi-trailing habit completely covered with sweet-scented, long-stemmed, double flowers.

PANSY

GARDEN STATE MIXTURE

Almost a lifetime of enthusiastic work is represented in this strain. Over many years, in the heart of New Jersey, the originator has been working patiently to obtain a strain that would meet with his high standards. Immense flowers of great substance, a wide range of splendid colors, compact sturdy plants with dark, green foliage, early and continuous flowering and a remarkable resistance to Summer's heat make these "Pansies that sell when others go begging."

PERENNIAL FLOWER SEEDS

Growing many perennials we naturally can obtain seed of many items. The rigid selection which is followed to maintain the superior quality of our plants reacts to the benefit of the seed. Many items produce better seed elsewhere and of these we purchase seed from the world's best specialists. For detailed descriptions, see plant list.
